

# Eclypt Pico Freedom

USB flash drives are extremely popular for transporting data. This is down to convenience in terms of their size and easy to use plug-and-play facility.

Eclypt Pico freedom addresses these concerns with its hardware-based, FIPS 140-2 level 2 validated encryption that protects mobile data inside and outside the corporate environment. All files are encrypted 100% of the time, ensuring maximum security alongside its tamper-resistant design.

---

## Key Features

- 256-bit AES encryption
- Mandatory security of all files
- Strong password authentication
- Lockdown mode after several incorrect password attempts

## *Eclypt Pico Freedom Specifications*

---
